

INDEX

S.No.	TITLE & AUTHORS	PAGE No.
1	How Agri-Tech Startups Are Shaping the Future of Farming <i>Arti pandey, Goutham K, Munjam Arun Kumar, Arnab layek, Durga Mahalanobish</i>	1-5
2	Stubble Burning in Northern India: Challenges, Consequences, and Sustainable Management Approaches <i>Dileep Meena, Hans Raj Meel, Bharat Bhushan Rana, Mridula, Manish Kumar, Sk Asrafal Ali, Komal Meena, Vijendra Kumar Verma, Jitendra Kumar Yadav</i>	6-12
3	Dual Nature of Ozone: Stratospheric Shield and Tropospheric Pollutant <i>Ravi A. R</i>	13-16
4	Agro-Processing: Adding Value to Agricultural Products <i>Siddhesh Salvi.</i>	17-22
5	Innovations in Food Storage and Preservation <i>Siddhesh Salvi.</i>	23-28
6	The Future of Sustainable Agronomy: Trends and Technologies <i>S. U. Gousia</i>	29-33
7	The role of crop rotation in soil health and productivity <i>Mohammed Azharuddin B R, Kiran Naik A, Bhoomika, Dr. Ruqsar Khanum</i>	34-39
8	Plantation crops in India: economic significance, market dynamics, and policy perspectives <i>Bidisha Dutta</i>	40-52
9	Improving Crop Yield Through Precision Agriculture <i>Irfan Ahmad</i>	53-57
10	Sustainable Practices for Growing Plantation Crops Successfully <i>Ganesh M C</i>	58-63
11	Mobile Apps and E-Extension Services: Empowering Farmers with Technology <i>Dr. Lalit Upadhyay</i>	64-68
12	Innovative Techniques in Plant Disease Detection <i>Dr. MD Arshad Anwer, Dr. Swagatika Mohanty</i>	69-74
13	Nature's Balance Sheet: Economic Valuation of Ecosystem Functions <i>Channaviragouda, Ravi A. R., and Manoj. N. S</i>	75-78
14	Crop Breeding for Better Disease Resistance and Yield <i>Shashank Haverimath, Abhishek M H, Kiran Naik A, Mohammed Azharuddin B R</i>	79-82
15	Molecular Dissection of Quantitative Trait Loci (QTLs) for Drought Resistance in Legumes <i>Dr. (Mrs.) Kiran, Dr. Tanmay Ghosh</i>	83-87
